The Inside Scoop

Welcome to our March issue of IYB!

I'd like to refer to this IYB as the "Green Issue." Yes, I look forward to many of the green traditions that go along with Saint Patrick's Day celebrations, but this March, your Central PA Chamber will be going green:

Think green...read all about and apply for the Central PA Chamber 2024 Green Business of the Year Award on page 3.

Take a look at your newly elected 2024 Board Officers on page 4. Chairman Jones pulled a Grover Cleveland and came back to the Executive Committee for a second, non-consecutive term! He joins re-elected 1st Vice Chair, Genie Bausinger and Treasurer, Ashley Parrish as well as newcomer, Jeff Comitz who serves as 2nd Vice Chair. For board members who feel a bit green, attend our May 29 Raising the Board class and you'll leae expert board members!

Our members' news (starting on page 6) and recognitions (starting on page 12) will have you green with envy! You are all doing amazing things in our community!

There are So Many Seminars coming up this spring and summer! Read all about how they can save you some green on page 15 and in Tea Jay's column on page 10.

Finally, Jessica's Jottings on page 18 will fill you in on everything to do with Facility Usages—our "Did You Know" topic for the month. Hopefully the grounds around our offices will look greener and greener as winter subsides and we welcome warmer weather!

Happy reading and enjoy the Green Issue of IYB!

Green Business Recognition is Unique Opportunity

The Central PA Chamber of Commerce’s Green Business Recognition Program was created to showcase the recycling, conservation, and environmentally-sound business practices of our members. Through the implementation of this program, we hope to encourage green business practices throughout our rural region.

In fact, green business is good business—it’s not just about saving the planet, it’s also about saving money! As a bonus, your customers and employees will value and reward you for your efforts.

Each year the Central PA Chamber staff meet as a team to select the Green Business Award winner. The team tabulates the application scores and reviews their essays. Anyone who completes and submits an application can gain the Green Business distinction on their Membership Directory listing, but only one applicant is selected for the annual award.

If you have completed an application previously, you are encouraged to complete the application again and re-submit for consideration for this year’s award. Perhaps you’ve made some changes at your business that will result in a higher score? Last year’s top three applicants were all within three points of each other, so make sure you give as many details as possible in your application essay.

The deadline to be considered for the 2024 award is March 11th, so get your application submitted ASAP. The winner will receive a beautiful, custom-made award from Chamber member, Handycraft, Inc. on (or as close as possible to) Earth Day, April 22, 2024, as well as plenty of publicity.

Good luck!

FCFP Scholarship: T-Ross Brothers Construction Inc. are Expanding Family Values to New Construction Students

MILTON – First Community Foundation Partnership of Pennsylvania (FCFP) offers more than 80 scholarships to local students each year. One scholarship is doing wonders for students looking to join the construction trade because it’s funded by a local leader in our region’s construction industry.

In January 2018, T-Ross Brothers Construction, Inc. established a permanent scholarship fund with FCFP. This fund aims to support two graduating seniors from any school district within Lycoming, Montour, Northumberland, Snyder, and Union Counties. Recipients of this scholarship will use the funding to attend college, university, vocational, or trade school, intending to pursue a degree in a construction-related field of study. Eligible students must have maintained at least a B average during their senior year in high school. Preference for this scholarship is awarded to students with hands-on experience in the construction industry, especially those planning to study construction technology with a focus on general construction, carpentry, or construction management. Secondary preference is given to applicants pursuing degrees in architectural engineering. "We're building for the future, one student at a time," states Todd Ross, President of T-Ross Brothers Construction.

Service1st Federal Credit Union

DANVILLE – Service 1st Federal Credit Union announced a new branch location will be coming to Muncy later this year. The future 4,200-square-foot Muncy location, at 200 Muncy Creek Boulevard, will include three Interactive Teller Machines (ITMs) and a teller pod, where members can complete transactions.

"We are looking forward to welcoming members to our new location in Muncy in the fall of this year," said Mike Thomas, President/CEO, Service 1st. "The ITMs will provide us with the flexibility to better serve our members’ ever-changing needs by combining our digital first focus with the personal service they’ve come to expect from our team."

The Muncy office will be the first of the credit union's branch locations to fully integrate ITMs. An ITM can be described as a customary Automated Teller Machine (ATM), with the capability to provide additional products and services to members as well as allow them to interact through live, video chats with member service representatives. Two of the ITMs will be in the drive-up area.

"Many people have grown comfortable with video communication in recent years, and this technology will allow us to connect with our members in an exciting new way," said Linda Brown, Chief Administrative Officer, Service 1st. "No matter how members decide to interact with the Service 1st team in the future, it will be the exceptional experience they’ve come to expect."

T-Ross Brothers Construction has been selected as the contractor.

Service 1st currently has 11 locations, in Bloomsburg, Danville, Elysburg, Lewisburg, Loyalsock, Mifflinburg, Montandon, Shamokin Dam, Sunbury and Wilkes-Barre.

For more information, visit service1.org or call 800.562.6049.

Diversification does not guarantee a profit or protect against loss in a declining market. Past performance is not a guarantee of future results. Investors should understand the risks involved in owning investments, including interest rate risk, credit risk, and market risk. The value of investments fluctuates, and investors can lose some or all of their principal.

The 2024 Forbes ranking of America's Top Wealth Management Teams Best-In-State, developed by SHOOK Research, is based on an algorithm of qualitative criteria, mostly gained through telephone and in-person due diligence interviews, and quantitative data. This ranking is based upon the period from 3/31/2022 to 3/31/2023 and was released on 01/09/2024. Advisor teams that are considered must have one advisor with a minimum of seven years of experience, have been in existence as a team for at least one year, have at least 5 team members, and have been nominated by their firm. The algorithm weights factors like revenue trends, assets under management, compliance records, industry experience and those that encompass best practices in their practices and approach to working with clients. Portfolio performance is not a criteria due to varying client objectives and lack of audited data. Out of approximately 10,100 team nominations, 4,100 advisor teams received the award based on thresholds. This ranking is not indicative of an advisor's future performance, is not an endorsement, and may not be representative of individual clients' experience. Neither Raymond James nor any of its Financial Advisors or RIA firms pay a fee in exchange for this award/rating. Raymond James is not affiliated with Forbes or Shook Research, LLC. Regional Fundraising Day Returns in March

Last year, North Central Pennsylvania showed its true spirit of philanthropy by donating \$2.3 million to 333 organizations.

FCFP in collaboration with the Blaise Alexander Family Dealerships, will host Raise the Region 2024 on March 13 and 14, to help the communities of Columbia, Lycoming, Montour, Northumberland, Snyder, Tioga, and Union counties support local nonprofit fundraising efforts.

"Raise the Region builds a sense of community," said Erin Ruhl, Director of Community Engagement. "It has become a primary fundraiser for many organizations over the years and donors appreciate the opportunity to help multiple local nonprofits throughout the region. It is a true celebration of local philanthropy."

The Central PA Chamber's Business & Education Association (B&E), the 501(C)(3) nonprofit entity of the chamber, has greatly benefitted from Raise the Region fundraising over the years.

The B&E Association funds aspects of our Seminar & Training Series events, career fairs, and job shadowing opportunities. It provides local students the opportunity to attend our Legislative Events for free as well as materials for our Raising the Board class. Thanks to the generosity of annual events like Raise the Region, the Central PA Chamber is able to provide our members and the general public with affordable, educational opportunities to build a knowledgeable workforce and help our region grow.

If you would like to participate in the 2024 Raise the Region fundraiser, please mark your calendar! You can only donate during a 30 hour window from March 13 to 14.

Visit the B&E landing page to make your secure and convenient donation.

The Central PA Chamber's Facility is Available For Your Use Too!

Happy Leap Year, readers! Hope you enjoyed your extra day last month!

Did you know the Central PA Chamber of Commerce has a facility that members can use 24 hours a day and 7 days a week? Well continue to read more about the spaces we have available for you to utilize.

The Ross Room is the first room you will see when entering the Chamber building. The room has 10 tables set up, a TV with the availability to hook up to, white board, and a coffee bar with mugs, water, coffee, and tea. The tables and chairs can be moved to accommodate your group, all we ask is that you move them back to their original set-up when finished. This room is able to seat up to 30 people comfortably.

The Breakfast Room is the smaller of the three spaces available, but still has 2 tables and chairs for the smaller meeting taking place. Most guests use this room to set up food and drinks when using the other rooms in the facility.

The Smith Room is our training spot and the most requested room. This room has 8 tables, an 80" flat screen TV, 2 white boards, and a small coffee bar. Tables can be moved for your convenience and this room can fit up to 50 people. We host our Breakfast Briefings and Blood Drives in this room to give you an idea of different setups.

Facility usages are not limited to any certain event or training. We have had trainings, seminars, hiring events, and even Christmas parties in the building. There is also a full kitchen available, and restrooms are easily accessible. There is plenty of parking for your guests or staff at our location as well.

Chamber members can reserve these rooms by simply emailing or calling me with dates and times. As a Chamber member your first room usage is free, after that daytime usage Monday-Friday is \$15, weekend and nighttime usage is \$30. These fees apply for a calendar year, January through December, then reset for the next year.

If you have any questions or would like to tour the facility, be sure to give me a call or shoot me an email. I will be happy to walk you through how to utilize this Chamber benefit.
