Join Our Team at SEDA-Council of Governments and Make a Difference!

Are you passionate about building stronger communities and driving regional growth? At SEDA-Council of Governments (SEDA-COG), we're on a mission to improve the quality of life across central Pennsylvania. As a dynamic, forward-thinking organization, we collaborate with local governments, businesses, and nonprofits to develop innovative solutions for economic growth, infrastructure, energy efficiency, and community development.

When you join SEDA-COG, you're not just starting a job—you're becoming part of a dedicated team committed to making a lasting impact. We value collaboration, creativity, and a shared vision of empowering our communities to thrive. Whether you're helping businesses secure financing, planning sustainable infrastructure, or spearheading new programs, your work here matters.

Primary responsibilities include (but not limited to):

- Provide GIS services to internal and external clients – mapping, database development, spatial analysis, preparing report figures, digitizing, license maintenance, etc.
- Create ArcGIS Online web maps, StoryMaps, Dashboards, Experiences, and Hub sites.
- Complete field data collection for bridges, roads, bike/ped assets, HPMS samples, etc.
- Conduct motorized traffic and bike/ped count programs and operate agency drone.
- Lead the Middle Susquehanna Active Transportation Committee and maintain the regional Active Transportation Plan.
- Support transportation planning through Environmental Justice analysis, local bridge prioritization process, Long-Range Transportation Plan analysis, and project field views.
- Perform analysis using traffic, land use, demographic, and socioeconomic data.
- Supervise work of interns and/or part-time employees.
- Prepare progress reports for invoices and committee meeting updates.

Qualifications/skills:

- Bachelor's degree in Geography, Planning, GIS, Computer Science, Transportation Studies, Environmental Studies, Engineering, or a related field.
- At least two years of related job experience preferred.
- ArcGIS Pro, ArcGIS Online, ArcMap; Esri or GISP certifications are a plus.
- Strong data management and cartography skills.
- Excellent written and oral communication skills.
- Proficiency with Microsoft Office programs is a must.
- Proficient in data collection, analysis, and research methods.
- Effective organizational skills, attention to detail, and ability to multitask.
- Ability to work independently and as part of a collaborative team.
- FAA Part 107 certification is desirable.
- Experience with scripting languages and scenario planning is desirable.

Salary commensurate with experience. Applicants are expected to supply a cover letter and resume by May 16, 2025, via mail or email to: Amanda Owens, Human Resources Director
